## Branded Ingredients

### Biofolate®

Biofolate® (Calcium L-5-Methyltetrahydrofolate) is the metabolically active form of folic acid. Compared to other Calcium L-5-Methyltetrahydrofolate products on the market, Biofolate® is crystal-I type with L-isomer, offering excellent chemical stability and dissolution rate that adhere to USP standards.

Biofolate® is manufactured in compliance with GMP standards in FDA registered facilities, holding certifications for HACCP, ISO9001, ISO22000, Kosher, HALAL and GRAS.

### Serenovate®

Serenovate® (Saw Palmetto Oil 85%) is derived from the berries of the saw palmetto plant (*Serenoa repens*), which is native to the southeastern United States. It is commonly used as a dietary supplement for its potential health benefits, particularly in supporting prostate health and treating symptoms of benign prostatic hyperplasia.

For Serenovate® (Saw Palmetto Oil 85%), MTC conducts Tru-ID NMR testing (in Purity IQ lab) and FTIR testing for every batch. We take pride in the fact that our material holds certifications including HACCP, Kosher, Halal, and ISO22000, signifying our unwavering commitment in providing quality ingredients
